

# Modernization & future-proofing your enterprise while unlocking the Power of Cloud & AI for business growth

Robust enterprise resource planning (ERP) & customer relationship (CRM) solutions deliver enhanced efficiency, drive growth, and elevate customer experiences. Fujitsu offering facilitates green field deployments, re-implementation from other ERPs along with and Upgrades & migration services

Fujitsu with its experiential learning, Microsoft toolkits, conversion framework and partner tools and technologies delivers a fully transformed ERP/CRM landscape to customers as part of the outcome.

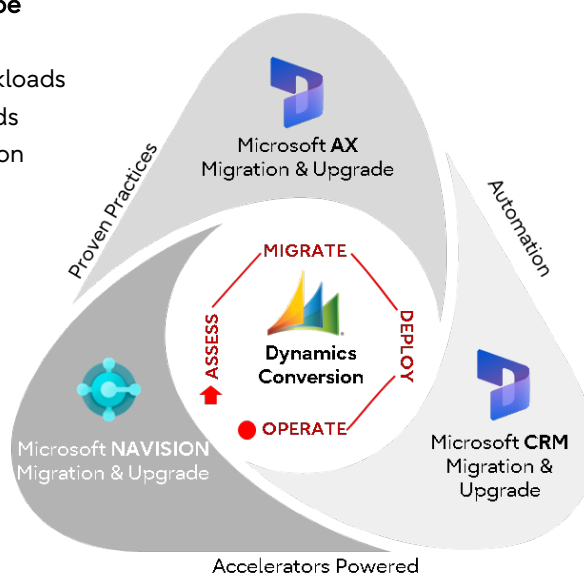

Fujitsu leverages Agile/Scrum methodology and Fusion delivery approach to deliver wide range of migrations of legacy instances to D365 cloud, be it On-premises/hosted (AXAPTA (AX), Navision (NAV), CRM Online) and leverages automation and best practices that enable efficiency while ensuring customers can focus on their business.

## Our Approach

Deliver seamless migration or upgrade of Microsoft Dynamics legacy applications to Dynamics 365 Cloud applications with execution that is transparency and well governed.

- **Accelerate Dynamics Landscape**  
Assessment of Dynamics AX, Navision, CRM on-premise workloads
- Migration Path/roadmap towards seamlessly Integrated solution on D365 Cloud

- **Migration Methodology** along w/Upgrade paths
- Business Requirement Assessment on **Upgrades or Re-implementation**

- Standard Microsoft Dynamics upgrade processes for **Platform upgrade, Application upgrade and Data migration**
- **Standard Cloud migration methodology and Tools** for migration to Cloud
- Automated Tests across modules to help speed up Functional and Integration testing
- Standard templates for **Data migration and Transformation**

Customer receive a fully migrated / upgraded system — supporting your business requirements and future readiness

# Service Features

## Scalability & Adaptability for Future Growth

Shift to cloud future-proof investments, ensures scalability, flexibility needed to adapt in changing market conditions and meet future growth & long-term strategic goals.

## Data-Driven Decision Making & Innovation

Advanced analytics and AI capabilities result in identifying trends, predicting outcomes, and gain deeper insights into operations that empower businesses to make data-driven decisions

## Strengthen Customer Relationship

The cloud's 360-degree customer view facilitates personalized interactions across departments, strengthening customer relationships and driving increased satisfaction, retention, and revenue.

## Operational Efficiency & Productivity

Unified nature of Dynamics 365 streamline business processes, automate repetitive tasks and improves collaboration leading to increased operational efficiency, reduced costs, and improved productivity

## Discover how organizations have succeeded with us!

### A Large Manufacturing Company

Deployment of AX Implementation & Migration of Dynamics 365 in UAE and India to address the operations and effective control on the business processes while knowing that Microsoft AX7 is not released in India and the Indian tax functionality was missing.

### European Unemployment Insurance Fund Company

Upgraded from MS NAV 2017 to a Microsoft-supported ERP to improve financial and HR processes, enhance performance and user experience, ensure data security, and reduce maintenance costs

### Renowned Institution in Australia Health sector

Fujitsu migrated the system within weeks, meeting a strict deadline, while also introducing new functionality such as real-time prescription verification and enabling business transformation & scale up seamlessly as new programs get onboarded.

*"We needed the new environment up and running within three months, Fujitsu stepped up with detailed planning, ensuring we met the required deadlines."*

*—Spokesperson*
